## JSTOR

### CONTENT

JSTOR is a large inter-disciplinary archive of full-text journal articles. It specializes in back issues of journals and will usually contain articles from the first issues of a journal up until 3-5 years ago, rather than the latest issues. Anglia Ruskin University Library's package contains Arts & Sciences and some additional special collections: 19<sup>th</sup> century British pamphlets, African Plants and The Ireland Collection.

### HOW TO GET STARTED

Log in to the University Library's web site: [www.libweb.anglia.ac.uk](http://www.libweb.anglia.ac.uk) with your University Login. Select **Database Finder** (from the left hand menu) and type JSTOR in the box and click **Go** (or press Return/Enter). Click on the **JSTOR** link and wait for a moment (for authentication) and the JSTOR search screen will appear. Alternatively, you can find JSTOR on many Advanced Search subject pages on the web site.

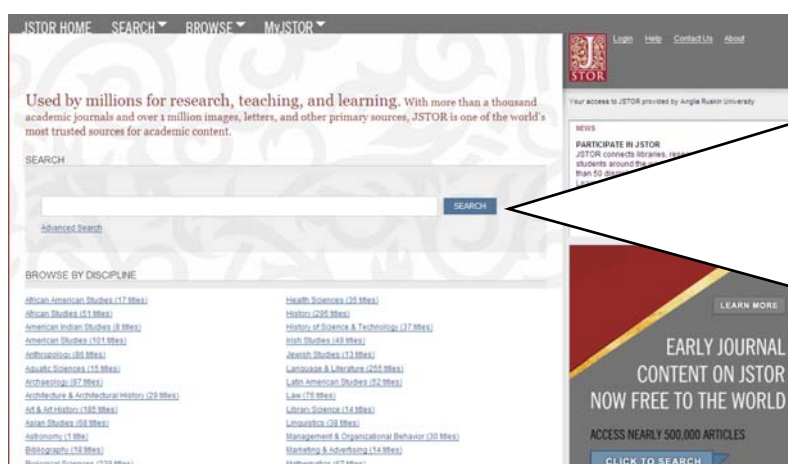

**Important note:** JSTOR is currently only accessible from the University Library website.

### HELP

Click on **Help** (the top right of the JSTOR screen) for more help and advice on searching. You can also contact the University Library for help at: [www.libweb.anglia.ac.uk/askus/index.htm](http://www.libweb.anglia.ac.uk/askus/index.htm).

### HOW TO SEARCH

Type your search words into the **Search** box and click on **Search**. You can limit your search by choosing a subject discipline from the section below, but this is optional.

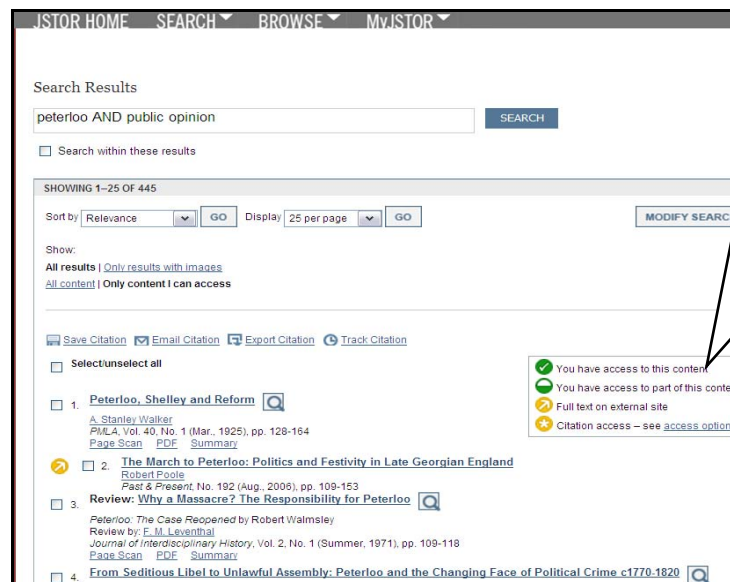

- Alternatively, you can choose **Advanced Search** from link below the Search box or from the **Search** link on the main menu.
- Advanced Search will enable you to combine search terms, limit your search to a type of material (e.g., articles and/or pamphlets), use the date range and choose a language.
- Type your subject terms in the relevant boxes and click on **Search**.

Note: only 10% of JSTOR articles include abstracts so you will find few if any articles when searching by abstract.

You can see which journals JSTOR contains by clicking on **Browse** from the main menu (top of the screen) and checking the alphabetical list. Use **Citation Locator** (Search menu) to search for a specific article/reference.

## HOW TO DISPLAY RESULTS

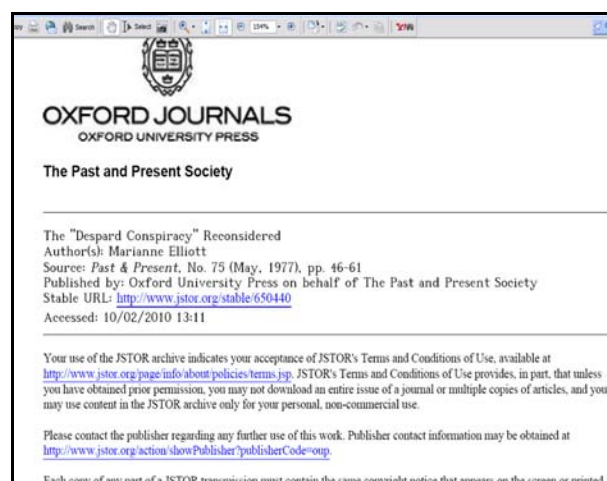

The Search Results screen will list your search results by relevance along with sort and display options. You may also edit your search using the **Modify Search** button or search within results option.

- Please note that full-text will be indicated by icons:  full access within JSTOR, and  access from an external website.
- Click on the **PDF** link under the title of a result to view a printable version of an article. Note: a pop-up box may appear which asks you to agree to JSTOR's terms and conditions, click on **OK**. A new screen will open containing the article.
- Click on the title of an item and then the [Article on external site](#)  link to access full text via another source.
- You can also click on the title to explore links to related items.
- Click on the **Back to Search Results** link (right of screen) at any time to retrace your steps.

## HOW TO SAVE RESULTS

On viewing the article, you can save, print or e-mail it to yourself or someone else. Choose the relevant links above your search results.

- Then click on the **X** (top right of the screen) to close the window and return to your results.
- JSTOR also offers a number of ways to manage your results and to track citations, for example, by signing up to its free **MyJSTOR** service: [about.jstor.org/support-training/help/myjstor-saving-searches-or-citations-0](http://about.jstor.org/support-training/help/myjstor-saving-searches-or-citations-0)
- References/citations can also be exported to **Refworks** (details at: [www.libweb.anglia.ac.uk/referencing/refworks.htm](http://www.libweb.anglia.ac.uk/referencing/refworks.htm)).

## HOW TO QUIT

Click on the **X** (top right of the screen) to close the window and return to the Digital Library.
