

## Hearing Aid Audiology Resources

---

### Books, e-books and multimedia materials

Use the **Library Website Quick Search** to find books, e-books and DVDs on your subject. The library website is accessed online at [www.libweb.anglia.ac.uk](http://www.libweb.anglia.ac.uk) Find specific books on your reading list using an author's name and significant words from the title. Find books on a topic by entering words that describe your subject (keywords).

The classification number shown in the 'Location' column on your results screen is the key to finding books on the shelves. Books are arranged on the shelves in numeric order using these numbers.

If you are browsing the library shelves the main classification number for **Hearing Aid Audiology** is **617.8**. However, using the **Quick Search** on the Library Web Page is by far the most effective way of finding your material.

**Electronic Books** (e-books) can also be accessed via the library website. Follow the 'Click here for access link' you will be prompted to log in using your University Login username (e.g. ab1 or abc101) and password used to access other University online services (e.g. My.Anglia, e-mail, VLE, staff and student PCs, etc) to reach the full text of the book.

---

### Journal articles, research papers etc.

**Journal articles** are a good source of information and you will be encouraged to refer to them, either by looking at specific articles on your reading lists or by carrying out your own searches for articles on your assignment topic.

In Science, information about the latest research will generally appear in a journal long before it is published in book form.

You can find specific journal articles by searching 'Journal Finder' this will search for both Print and Online Journals.

**Print journals** are shelved alphabetically by title on the first floor of the Library.

**Online Journals** are accessible via the Library website; you will have to log in to get access to them. Select “**Journal Finder**” from the left-hand side you will then be able to search for a particular title.

Relevant Online Journals for **Hearing Aid Audiology** available via the Library website include:

- BMC Ear, Nose and Throat Disorders
- British Medical Journal (BMJ)
- Ear and Hearing
- ENT journal
- The Hearing Journal
- Hearing Research
- International journal of Pediatric Otorhinolaryngology
- Journal of Sound and Vibration
- Journal of Speech, Language and Hearing research
- The Lancet

Using **Quick Search** will give you a high chance of finding some full text material on your chosen topic.

Use **Advanced Search** for more extensive and in-depth searching. You will need to log in University Login username and password). Choose **Health** from the drop down menu, then scroll down and select **Vision and Hearing** from the list of sub categories. This will give you a range of databases relevant to your subject. **Medline** is a very good database to start your research.

The screenshot shows the Anglia Ruskin University Library website. The main navigation bar includes 'Home | Accessibility | Glossary | My.Anglia | powered by Google | Search'. The page title is 'University Library > Journal articles etc > Advanced Search (SubjectSearch)'. The left sidebar contains a menu with 'General Information', 'Digital Library', 'Newspapers', 'Journal Finder', 'Database Finder', 'Exam Papers', 'Reading Lists', 'Interlibrary Loan', 'Google Scholar', 'Quick Reference', 'My Digital Library', and 'Help & Advice'. The 'Advanced Search (SubjectSearch)' section is active, showing a search type of 'Subjects' and a subject of 'Health'. The 'Sub Categories' list includes: Disability, Elderly Care, Evidence Based Care, Health and Policy Management, Health Research, Health Statistics, Learning Disabilities, Mental Health, Midwifery and Newborns, Non-Medical Prescribing, Public Health and Health Promotion, Radiography, and **Vision and Hearing**. A callout box with the text 'Select Vision and Hearing from the list of sub categories.' points to the 'Vision and Hearing' option. Below the sub categories, there is a search interface with 'Find results with:' and 'Subject: Health--Vision and Hearing contains 28 databases'. A list of databases is shown, including 'Academic OneFile', 'Articles on Low Vision from the Optician Online', 'Business Source Premier', 'Emerald Fulltext (EMX)', 'Hearing Journal Online Archive', 'HighWire Press', 'MEDLINE (EBSCO)', 'ScienceDirect - All Content - V.4 (Elsevier)', 'UK Published Central', and 'Web of Science via the Web of Knowledge(SI)'. Each database has a checkbox and an 'Actions' column with information and plus icons.

The **Advanced Search** allows you to cross search databases by clicking the box next to the title and typing search terms in the boxes above. This means that several databases can be searched at once.

You can also click on the underlined title and that will enable you to search the database itself.

**Articles without full text:** you will probably find some useful references without full text. You can order these for a small charge using our Interlibrary Loan service accessible via the Library website at [www.libweb.anglia.ac.uk/services/ill.htm](http://www.libweb.anglia.ac.uk/services/ill.htm) You will be able to have it delivered electronically. On the request form, from the dropdown box labelled "**Preferred Media**" select "**Journal Article Digitised**" Then select "**Email**" from the drop box labelled "**Media Send Method**" on the bottom of the form. Once you have submitted your form you can pay for your request: by sending a cheque or by telephone with a credit/debit card. An email will come from the BL with a link to your digitised document which is held on the BL website for you – see example below:

The following are useful **databases** for finding journal articles in **Hearing Aid Audiology**.

<b>ENT Audiology Specialist Library</b>	Part of the NHS National Library for Health. The Specialist Library for ENT and Audiology is a unique resource that aims to provide healthcare professionals with access to the best available evidence in ENT, audiology and thyroid disorders.
<b>Academic OneFile</b>	Covers a wide range of subjects with a large proportion of articles available in full text.
<b>Intute: Health &amp; Life Sciences: Medicine gateway.</b>	A free online service providing access to the very best web resources for education and research. The service is created by a network of UK universities and partners. Subject specialists select and evaluate the websites.
<b>Medline</b>	The United States National Library of Medicine's (NLM®) premier bibliographic database.
<b>ScienceDirect</b>	Provides online access to over 1,500 scientific and medical journals, many full text.
<b>Wiley InterScience</b>	Gives access to over 1400 journals in a wide range of subjects within science, technology and medicine,

Demonstrations of finding both print and electronic journals articles can be found in Pilot, the University Library's online tutorial at [www.libweb.anglia.ac.uk/pilot](http://www.libweb.anglia.ac.uk/pilot) Section 2.4.2

---

## Referencing

You need to cite and reference other people's work correctly if you use it within your own work. Your department uses the Harvard System of Referencing. Further information and examples can be found in the Library's Guide to the Harvard System of Referencing at [www.libweb.anglia.ac.uk/referencing/harvard.htm](http://www.libweb.anglia.ac.uk/referencing/harvard.htm). It is important to keep good records of all the material that you read for your work so that you can reference other people's work correctly.

You can use an area called My Book-shelf and My Journal e-shelf within My Digital Library on the Library website to save your search results.

All references can be managed using a free bibliographic management tool –

**RefWorks**. It can help you create reference lists in the Harvard style.

[www.libweb.anglia.ac.uk/referencing/refworks.htm](http://www.libweb.anglia.ac.uk/referencing/refworks.htm)

---

## Help

Help is available in a variety of ways:

- **Visit** the Help & Advice section of the library website. You can “Ask Us” by phone, email or online chat at:

[www.libweb.anglia.ac.uk/askus](http://www.libweb.anglia.ac.uk/askus)

- **Contact** one of the Science and Technology Team:

Elaine Newell	0845 196 2064	<a href="mailto:elaine.newell@anglia.ac.uk">elaine.newell@anglia.ac.uk</a>
Andrea Packwood	0845 196 2470	<a href="mailto:andrea.packwood@anglia.ac.uk">andrea.packwood@anglia.ac.uk</a>
Jenni.Kuziw	0845 196 2453	<a href="mailto:jenni.kuziw@anglia.ac.uk">jenni.kuziw@anglia.ac.uk</a>

**Book-A-Librarian** If you have a lengthy query it may help to book an appointment with one of the subject team. You can do this via the “**Book a Librarian**” link on the Library Webpage.

- **Try** our Information Skills Tutorial PILOT at:

[www.libweb.anglia.ac.uk/pilot/](http://www.libweb.anglia.ac.uk/pilot/).

This is an online tutorial covering information searching and referencing.

A range of information skills sessions are run by library staff each semester which will be advertised in the library and on our website.
